

TITLE: Safety and Security of School Facilities

CODE E7

Policy

It is the policy of the Brattleboro Union High School District #6 to maintain a physical environment that is safe, clean and attractive.

The Board and the school staff cannot be the guarantors of student safety, and the school does not owe students a duty of immediate supervision at all times and under all circumstances.

Implementation

The Principal or his or her designee will conduct weekly inspections of facilities. This inspection will include proper storage and use of potentially hazardous materials on the premises and areas where safety hazards might develop.

Faculty and staff members will report potentially hazardous conditions to the Principal promptly, and will correct those hazardous conditions that can reasonably be corrected. The Principal will be responsible for seeing to it that any hazardous conditions which cannot be reasonably corrected by faculty and staff members are promptly corrected by qualified persons.

Prior to the beginning of the school year in August, there will be an inspection of the building (facility) conducted by an administrator and school custodian.

Procedures for maintaining security will be developed by the building Principal (or Superintendent). Procedures will be distributed to all employees who will have responsibility for complying therewith.
