

TITLE: Naming and Renaming School Facilities

CODE: LBP 14

On occasion, the need may arise to assign a name to a new school facility or to change the previously established name of a school wing, specific facility located within a school, or any property and/or facility owned by the BUHS District #6.

A proposal to assign a name, change a name, or assign a name for a portion of a facility may be recommended for any number of reasons, including, but not limited to, the district's intent to honor an individual or group, or to reflect the facility's present use and/or location.

No facility or portion of a facility shall be named or renamed unless there has been a public notice and discussion during a regular board meeting.
