

**TITLE: Physical Education**

**CODE: LBP-8**

Except as provided below, student participation in physical education classes will be on a pass-fail basis. Neither a “pass” nor a “fail” shall be reflected in the calculation of a student’s cumulative grade point average. Students that achieve passing grades in physical education classes shall receive academic credit toward graduation requirements for those classes.

Within three weeks after the beginning of each semester, students in physical education classes may elect to have their performance in physical education classes evaluated on a graded basis by providing their physical education teachers with written notice of that election. The physical education course grades for students making this election shall be reflected in the calculation of those students’ cumulative grade point averages. Notice of this election shall be made in the Brattleboro Union High School Student Handbook and by physical education teachers at the beginning of each semester.
